***Allowable Subject Matter***

Claims 1, 6-8, 24, and 29-35 are allowed. The following is an examiner's statement of reasons for allowance:

Independent claims 1 and 24 when considered as a whole, are allowable over the prior arts of record. Specifically, prior arts of record do not teach or suggest the combination of means, arranged and interacted to perform the step of providing a unified user interface for a modular software component-based shell application having a plurality of software components that execute within the shell application and the master table being remerged from the component tables and the user interface being automatically regenerated from the remerged master table in response to modification of a software component of the application wherein each component table corresponding to and providing resource information about a particular software component of the application.

Dependent claims 6-8, 29-35 further add limitations to the allowable subject matter of the independent claims 1 and 24, thus are also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee.

Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mylinh Tran. The examiner can normally be reached on Mon - Thu from 7:00AM to 3:00PM at 571-272-4141.
